 Napier

To whom it may concern

Sport Hawke's Bay commends the Hawke's Bay Regional Council Land Management work in providing opportunities to the public to enjoy Tutira and Pakowhai Country Parks and the Tangoio Soil Conservation Reserve. We also commend the work the Council contributes towards the Regional Pathways.

Outdoor recreations facilities are an important management tool to not only create places for physical activity but also to enhance your valuable work in conservation and sustainability. Bravo keep it up.

Sport Hawke's Bay work is about encouraging Active Living – "getting more people, more active, more often". Walking/Cycling pathways and Country parks are tremendous places to get outside and enjoy the Hawke's Bay environment.

Sport Hawke's Bay looks forward to working within the Hawke's Bay Regional Councils new 'Publicly accessible open spaces policy to encourage outdoor recreation and physical activity.'

Yes, we do wish to present this submission in person to the Council meeting
