**\* Person(s) making the submission**

Helen Crawford and Greg Young

**\* I am a trade competitor for the purposes of section 308B of the Resource Management Act 1991**

No

**\* I am directly affected by an effect of the subject matter of the submission that: (a) adversely affects the environment; and (b) does not relate to trade competition or the effects of trade competition.**

Yes

**\* 1. The specific parts of the application that my submission relates to are:**

The extension of the landfill to area 'B'

**\* 2. My submission is: (include whether you support, oppose or are neutral to specific parts of the notice of requirement or wish to have them amended; and the reasons for your views.**

Opposition to extending the landfill to area 'B'

Science has confirmed 90% of landfill linings fail and do remain intact.

Risk of water contamination to the many surrounding bores -more than previously are now drinking water consented.

It is unlikely that the waste is covered at the end of each day as is required.

Offal trucks are seen passing, is this site consented for offal disposal?

**\* 3. I / We seek the following recommendation or decision from the Hastings District Council:**

Impose conditions

**(Please give precise details including the general nature of any conditions sought)**

Test down stream water every 3 months

Should contamination occur to currently consented (and independently tested frequently) water supplies then the council provides water until the supply is free of contamination

Regulation/audits of the sand covering of the waste at the end of every day. This needs to be monitored and cameras put up and be available to ensure this is not skipped.

Take waste only from the Hawkes Bay and only waste that it is consented to take.
