6.8.9 Noise

**\* 2. My submission is: (include whether you support, oppose or are neutral to specific parts of the notice of requirement or wish to have them amended; and the reasons for your views.**

We oppose the opening of Area B unless the above specific parts that are referred to above are taken into consideration. Our subdivision recently spent a lot of money on a new bore to give us a high standard of drinking water which we believe may be adversely affected by leaching - if this occurs what recourse do we have?  
The hours of operation appear to have been extended which will in turn cause more traffic, noise extra - this should stay as it is currently.  
On occasion the air quality is compromised, what guarantee do we have that this is not going to become more frequent.
