

CHECKLIST ACTIVITY SHEET

BE A DETECTIVE!

FACT:

Approximately 70% of the earth's surface is covered with water.

You can Research:

Why is **milk** toxic to aquatic life?

*Soapy water
whats the harm?*

CHECK LIST

Here are a list of good and bad things for our waterways. **Do you know which is which?** Tick the 'bad' or 'good' next to each option in the list.

	Good	Bad
1. Washing the car on the grass or taking it to a car wash		
2. Being a responsible pet owner and picking up dog poo		
3. Using lots of fertiliser and pesticide on the garden		
4. Putting litter and cigarette butts in the bin		
5. Washing the car in the driveway		
6. Leaving lots of leaves and dirt in the gutter		
7. Tipping oil or fat down the drain		
8. Leaving dog poo on the ground		
9. Sweeping the gutter and keeping it clean		
10. Tossing cigarette butts on the ground		

We should all do our bit to protect our waterways - and remember that drain is just for the **RAIN!**
