Amend Policy LW3A as follows:

"Policy LW3A - Decision Making Criteria – Outstanding Fresh[W]water Bodies

1. In relation to those types of activities identified in Policy LW3A.2, once a resource consent expires, the relevant catchment based regional plan change⁹ is operative or after 31 December 2025, whichever is sooner, a consent authority must take into account [have regard to]:

(a) the extent to which the effects of the activity would protect or detract from the outstanding value(s) described in Schedule 25 for the relevant outstanding freshwater body

(b) the extent to which the effects of the activity would protect or detract from the significant values (if any) identified in Schedule 25 for the relevant outstanding freshwater body

(c) whether, in order to protect the freshwater body's outstanding values and significant values:

(i)....

(ii) time limits, including seasonal [limits], minimum flows or water levels, or other limits on the activity [may] would be appropriate

(iii) the effects of the activity either on its own or in combination with similar activities, has effects that are more than minor

(d)...

2. Policy LW3A.1 [only] applies to the following activities [classified as a discretionary activity or a noncomplying activity by a rule] regulated in a regional plan:

(a) "....outstanding freshwater body"

(b)"... from an outstanding freshwater body"

(c) ".... into an outstanding freshwater body"

(d) ".... entering an outstanding freshwater body"

(e) "... in the bed of an outstanding freshwater body"

(f) a land use consent for any new or increased disturbance of the bed of an outstanding freshwater body [that is not already authorised by a current land] use consent.

3. Policy LW3A.1 only applies in the following circumstances:

(a) where [a description of] the outstanding freshwater body's outstanding value (s) is stated in Schedule 25 [and/] or

(b) where [a description of] the outstanding freshwater body's significant value(s) is stated in Schedule 25.

Amend the Principal Reason and Explanation for Policy LW3A as follows:

"Policy LW3A provides guidance to resource consent applicants and decision-makers when assessing activities which can potentially cause adverse effects including cumulative adverse effects, on outstanding freshwater bodies. In some cases, the proposed activity may be inappropriate at that location or at certain times of the year. Those types of factors [can] shall be [considered] taken into account by the Consent Authority when assessing resource consent applications to ensure the outstanding freshwater body's significant values and outstanding values are appropriately protected. Policy LW3A takes effect after the objectives and limits have been set across the region and included in the Regional Resource Management Plan as required by the National Policy Statement for Freshwater Management. Where consents have already expired or are due to expire before PC7 becomes operative, they will be assessed in accordance with the limits and targets in the operative regional plan."
