N.B. The above costs exclude GST and are indicative figures only quoted in August 2013 to assist in estimating costs for guarantee from spiller. Costs passed to the spiller should be replacement costs plus any additional costs eg freight , handling etc at the time of the incident which may change from these quotes. The actual costs to charge are obtained from MNZ once notified of the quantities used.

Note: Dispersant costs are likely to alter greatly as feedstock prices change. Furthermore the per litre rate quoted is based on the initial large volume orders placed by MNZ. Small volume replacement orders are likely to experience a premium being placed on them.
